## **Colo Atl Announces Over 6000 Dark Fiber Strands Installed in its Downtown Atlanta Facility**

**Dark fiber available from top-tier metro, regional and long haul providers  
including Allied Fiber, FiberLight, Southern Telecom and Zayo**

**ATLANTA, July 27, 2015** – [Colo Atl](#), a leading provider of network-neutral colocation, data center and interconnection solutions announces today that its customers have installed over 6000 dark fiber strands within its expanding facility at 55 Marietta Street in downtown Atlanta. The announcement comes as Colo Atl continues its expansion, which includes a recently announced additional 6,400 square feet for a total of ~24,000 square feet of data center and colocation space.

"Colo Atl continues to meet the interconnection demands of service providers and enterprise alike, throughout the region," stated Tim Kiser, Owner and Founder of Colo Atl. "Increasing dark fiber availability, like our facility expansion, is intended to provide greater access to critical interconnection and data center services for the burgeoning service provider and network operator community in the Southeast region and we are proud to be building and delivering the products and services our customers need."

"Colo Atl has been and continues to be an outstanding location to interconnect with our customers and partners in Atlanta," stated Chris Bradford, Regional VP Sales & Marketing, East Region for FiberLight, LLC. "Based on the demand we have seen, we recently installed additional 288 fiber cables diverse into the Colo Atl Meet Me Room."

Founded in November 2001, Colo Atl is an Atlanta-based, network-neutral colocation, data center and interconnection facility providing cost-effective solutions for more than 80 local, regional and global network operators.
